**MOP FRAME HARDWARE**

**SKU: W600-1007**

**Description**

Exclusive swivel mop frame, made of high-grade stainless steel, can be manoeuvred onto floors, walls, ceilings, baseboards and confined areas such as corners or stairs where conventional string mops are notoriously inefficient. Low profiled mop frame for easy and efficient cleaning under fixtures or other hard to reach surfaces.

It also permits mopping in an “S” motion, collecting solid particles during use. This Mop Frame delivers continual surface contact at any angle and is accurately balanced for non-flipping, swivel also locks into any position for maximum contact pressure. A quick squeeze releases the frame-locking mechanism, enabling contaminated mop or sponge head to be replaced.

High-grade stainless steel can be manoeuvred easily for use on floors, walls, and ceilings.

- Designed specifically for use in controlled environments
- Low profile
- High-grade stainless steel
- Ideal for floors, walls, ceilings, baseboards, and confined areas
- Impervious to most chemicals, will not rust, corrode or oxidize.
