

Fume protection at source - the new Zero-Smog[®] 20T.

Energy saving

When connected to a WX solder station, the automatic off function is selected. A user defined off time can be input from the WX station to switch off the unit when not needed to save running costs.

Code No. T005 36 706 99

Automatic pressure control

The Zero-Smog[®] 20T will maintain a constant extraction volume at all connected soldering irons.

Health and Safety

The operation of the Zero-Smog[®] 20T is recorded on an internal memory which can be downloaded onto a USB memory stick for reporting purpose.

Save Energy

Flexibility

The Zero-Smog[®] 20T is designed and rated for up-to 20 tip extraction solder stations. A wide range of accessories allows a high flexibility of the system. Castors are fitted for ease of movement.

Maintenance

A filter condition indicator (red / yellow / green LED) and an audible alarm will signal when a filter change is needed.
