

888 GS EPA TECHNICAL SPECIFICATIONS

Voltage	100V/120V/220-240V 50/60 Hz versions
Motor power	Max. 1100W
Housing	Permanent dissipative material SR: 10E7 – 10E8 ohms
Max. suction power	210 mbar
Max. airflow	45 litres/sec
Noise level	Approx. 64 db
Weight (appliance only)	6 kg
Dimensions	39 x 34 x 42,5 cm (LxWxH)
Diameter accessories	32 mm
Detachable cordset	Length 10 meters
Filter bag capacity	Approx. 12 Ltr

Manufactured in The Netherlands to European Community
Standards No. *2006/95/EC & 2004/108/EC*

IEC 61340-5-1 = EPA = Electrostatic Protected Area, only permitting use totally ESD safe materials and production aids to fully protect ESD sensitive electronics against harmful electrostatic discharges.
