

SPI 27

Code No.: T0056402199N

Benefits

- > Heating up time approx. 180 sec.
- > Tip temperature approx. 410°C

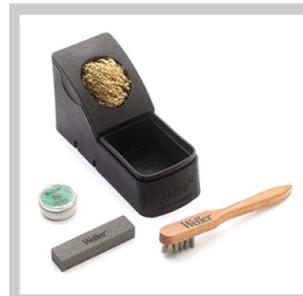

In addition we recommend:

Fume extraction devices

Preheating plates

Cleaning Consumables

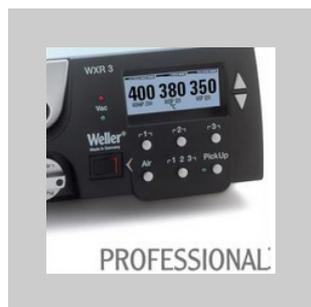

Soldering Tips

Technical Data

Active Tip Heating element technology	---
Power Response Heating element technology	---
Silver Line Heating element technology	---
Voltage	230 V AC
Heating output	25 W
Tip family	SPI26
Power unit	---
WX compatible	---
Temperature range °C	ca. 410
Temperature range °F	ca. 770
Heat-up time	180
Safety rest	---
Safety rest (optional)	---
Barrel	---
Integrated tip extraction	---
