

SPI 81

Code No.: T0056405399N

Benefits

- > 80 W, 230 V
- > Heating up time approx. 180 sec.
- > Tip temperature approx. 480°C

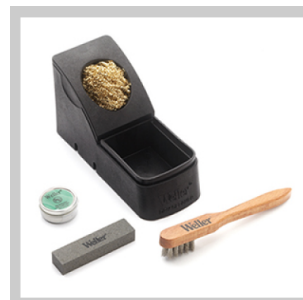

In addition we recommend:

Fume extraction devices

Preheating plates

Cleaning Consumables

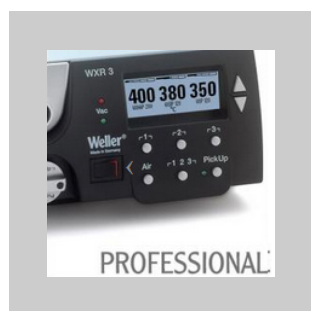

Soldering Tips

Technical Data

Active Tip Heating element technology	---
Power Response Heating element technology	---
Silver Line Heating element technology	---
Voltage	230 V AC
Heating output	75 W
Tip family	SPI80
Power unit	---
WX compatible	---
Temperature range °C	ca. 480
Temperature range °F	ca. 896
Heat-up time	180
Safety rest	---
Safety rest (optional)	---
Barrel	---
Integrated tip extraction	---
