

# SPI 41

Code No.: T0056403799N

## Benefits

- > 40 W, 230 V
- > Heating up time approx. 180 sec.
- > Tip temperature approx. 450°C

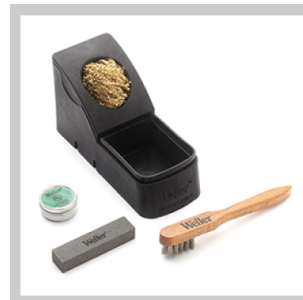

In addition we recommend:

Fume extraction devices

Preheating plates

Cleaning Consumables

Soldering Tips

Technical Data

Active Tip Heating element technology	---
Power Response Heating element technology	---
Silver Line Heating element technology	---
Voltage	230 V AC
Heating output	40 W
Tip family	SPI40
Power unit	---
WX compatible	---
Temperature range °C	ca. 450
Temperature range °F	ca. 842
Heat-up time	180
Safety rest	---
Safety rest (optional)	---
Barrel	---
Integrated tip extraction	---
