

## DATASHEET

ESD Safety

### Antistatic Brush Length 33cm

SKU: BR000008

#### Description

Anti-static brushes provide manufacturers of electronics and static charge sensitive products the tools for cleaning and manufacturing that do not create static charges. Varieties of anti-static brushes have been assembled over the years to meet the variety of needs associated with ESD buildup. ESD cleaning brushes are ideal for removing dust, dirt, and leftover materials from printed circuit boards (PCB) and other static sensitive components. These brushes are available with permanent static dissipative nylon bristles or conductive synthetic yarn and horsehair bristles.

#### Features:

- ESD Brush – Small – 133x5x33 mm (lwxh) 17 row x 1 row, length 255mm
- Conductive handle with conductive nylon bristles
- Suitable for cleaning PCB's
- Suitable for both abrasion and residue removal
- Resistivity  $10^4 - 10^6$  Ohms
