

DATASHEET

ESD Lab Coat
SKU: G0000007

Description

Our ESD collaborates with A.High Tech, which has been for many years a specialist in the tailoring of high technology reusable Anti-Static cleanroom clothing and clean area garments. Their continual input into garment design to meet the changing demands and specifications within the ESD protected areas, cleanrooms, clean areas and operating theatre, combined with a close relationship with fabric suppliers and laundries, ensures that we continue to supply garments to meet the most critical standards and norms.
