

DATASHEET

Cleanroom Ground Cord 10mm PB/BA 2.4m Lightblue

SKU: W0000032

Description

A safety device used to channel static electricity to a proper ground while handling sensitive computer equipment. ESD damage occurs when a release of stored static electricity travels from something such as a person's body into a conductor of a different potential, This Prevents dangerous electrostatic buildup while working on electronics. ESD wrist strap helps you protect your valuable computer equipment from dangerous static electricity. The wrist strap/grounding bracelet offers hassle-free electrostatic grounding, allowing you to work freely on your computer without having to worry about static build-up, which could potentially damage computer components. Designed and constructed to exceed IBM and US military static control standards, the grounding bracelet/ESD wrist strap is made from the highest quality static dissipative material to ensure the safe operation of your equipment.

Features:

Coil Cord: 10mm push button / banana plug

Length: 2,4m

Color: Light blue
