

## DATASHEET

### ESD Wrist Strap Antiallergenic 10mm

SKU: W0000012

#### Description

ESD Wrist Strap sets as well as ESD Metal Wrist Strap sets, better known as Anti-static Wrist Straps, are used to prevent electrostatic discharge by safely grounding a person working with electronic components, equipment has, or in electronic assembly facilities, manifold ESD damages or ESD hazards are prevented, saving a lot of money. It consists of a band of fabric with fine conductive fibers woven into it. The fibers are usually made of carbon or carbon-filled rubber, and the strap is bound with a stainless steel clasp or plate. Wrist strap: adjustable, elastic, antiallergenic with woven conductive fibres and without metal plate.

#### Features:

Coil Cord:	10mm PB / banana plug / crocodile clip
Length:	1,8m
Resistance:	$\leq 10^6$ Ohm
Color:	Light blue
