STANNOL FLUX-PEN 500-6B
SKU: 165105

Description

STANNOL FluxPen 500-6B is a ready-to-use flux for single-, double-wave and selective soldering processes. It can also be used for manual soldering as it leaves very safe residues either by use in a dipping process or in a STANNOL Flux Pen. It Takes off all contaminated clothing immediately. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.

Features:

- Halide-free activation
- No-Clean
- Very good wetting properties
- Flux type ROLO (EN 61190-1-1) / 1.1.3.A (DIN-EN 29454-1)
- Ideal for rework and repairs
- Manufacturer Stannol
