WELLER ELECTRONIC FLUX 100ML

SKU: T0051383199

Description

Electronic Flux

Liquid flux for fast and efficient soldering of electronic components also suitable for tin plating or solder pot dip tin plating. (Halogen free colophony liquid flux). The liquid flux remains on the soldered area, please use a suitable flux cleaner if a flux free board is required.

Weller Electronic Flux is a halogen-free, colophony-based liquid flux that promotes fast and efficient soldering of electronic components. It is also suitable for use with tin plating and solder-pot-dip tin plating. The liquid flux remains on the soldered area and should be removed using a suitable flux cleaner if a flux-free board is required.

- Colophony-based liquid flux
- Promotes fast and efficient soldering
- Halogen-free
- Conforms to DIN EN 29454 Typ 1.1.3.A (F-SW 32)
