BLUE PU COIL CORD 1.8M, 10MM STUD TO 10MM STUD / 1 MEG

Description

ESD Ground Coil Cord Light blue

A safety device used to channel static electricity to a proper ground while handling sensitive computer equipment. Electrostatic discharge (ESD) damage occurs when a release of stored static electricity travels from something such as a person's body into a conductor of a different potential, This Prevents dangerous electrostatic buildup while working on electronics. ESD anti-static wrist strap helps you protect your valuable computer equipment from dangerous static electricity. The wrist strap/grounding bracelet offers hassle-free electrostatic grounding, allowing you to work freely on your computer without having to worry about static build-up, which could potentially damage computer components. Designed and constructed to exceed IBM and US military static control standards, the grounding bracelet/ESD wrist strap is made from the highest quality static dissipative material to ensure the safe operation of your equipment.

Technical Futures:

- coil cord
- 10mm push button / push button
- length 1.8m
- color: lightblue
