ESD GLOVES PU PALM, NYLON, WHITE

This is a highly popular glove amongst our customers. The white, lightweight, static dissipative characteristics of the glove, combined with the PU coated palm and finger tips, makes them ideal for handling electronic parts and components.

What's more, the colour-coded cuffs enable users to quickly find the size needed. Please note that these gloves are not washable.

FEATURES & BENEFITS

- Dissipative
- Elastic, breathable and dust-free
- Material: %100 pure nylon (280 denier with 13 gauge) with polyurethane palm coating
- White liner and white palm coating
- Color-coded cuffs denote sizing: white is small, green is medium, grey is large, yellow is extra large
- Surface resistivity: $1 \times 10^{-8} \Omega/\text{cm}$
- Available in white, grey, black or blue upon request
- Other sizes available upon request

APPLICATIONS

- Suitable for handling ESD sensitive products or components
- Help to prevent scratches to enclosures or equipment during handling
- Breathable material makes the glove suitable for use in warm lab environments
