### PINK ANTISTATIC BUBBLE BAGS

Pink Antistatic Bubble Bags are made from the soft textured, flexible material along with the sealed air bubbles offering a superior cushioning and shock proof function for the transportation or storage of the electrostatic discharge sensitive devices or components.

#### FEATURES AND BENEFITS:

- Blow moulded with anti static additives from LDPE and LLDPE
- The sealed air bubble offers superior cushioning and shock proof function
- Soft texture and flexible material
- Manufacturing method: Two layer extrusion with calendar roll to thermoform bubble
- Does not generate a static charge
