ESD Safety

MOISTURE BARRIER BAGS

SKU: B50000XX

PRODUCT INFORMATION

Having maximum resistance to vapor and oxygen, Moisture Barrier Bags are designed to protect the electronic products which are sensitive to moisture and electro static discharge (ESD) e.g. PCBs or integrated circuits. They are suitable for the packing of these articles during shipping and storage.

The opaque and light-tight material makes the moisture barrier bags suitable for vacuum-sealing.

FEATURES & BENEFITS

- Protects electronics from moisture and static damage
- Opaque and light tight to offer additional protection
- Firm lamination and heat sealing offers superior resistance to vapour and oxygen
- Surface resistance of 10^8 - 10^{11} Ohms
- These bags are ideal for transporting and storing sensitive devices such as circuit boards and electronic components.
- Available in 3.6 / 4.4 and 6Mil thicknesses
- Flexible structure & easy to vacuum seal

DATASHEET

Article No.	Description	Size (mm)	Size (inch)	Qty. (per pack)
B5000004	Moisture Barrier Bags	102 X 152	4 X 6	100
B5000006	Moisture Barrier Bags	152 X 305	6 X 12	100
B5000008	Moisture Barrier Bags	152 X 712	6 X 28	100
B5000010	Moisture Barrier Bags	203 X 254	8 X 10	100
B5000012	Moisture Barrier Bags	203 X 508	8 X 20	100
B5000016	Moisture Barrier Bags	254 X 508	10 X 20	100
B5000018	Moisture Barrier Bags	254 X 660	10 X 26	100
B5000020	Moisture Barrier Bags	305 X 406	12 X 16	100
B5000022	Moisture Barrier Bags	305 X 508	12 X 20	100
B5000024	Moisture Barrier Bags	406 X 457	16 X 18	100
B5000025	Moisture Barrier Bags	457 X 457	18 X 18	100
B5000030	Moisture Barrier Bags	559 X 610	22 X 24	100
B5000032	Moisture Barrier Bags	585 X 813	23 X 32	100
