

NEW!**DURA**STRIPE®**MEAN LEAN**a quality product from
ERGOMAT

The durable, economical marking solution, perfect for

- Newer or reconditioned industrial and commercial floors
- Light to moderate forklift traffic
- Reconfiguring 5S, Lean Manufacturing and Visual Workplace programs

DuraStripe **Mean Lean** incorporates many of the most desirable qualities of X-Treme DuraStripe into a thinner, more economical marking material that delivers remarkably robust performance. It resists scuffing and cleans easily, making it perfect for aisle striping as well as for lasting 5S, Six Sigma and Visual Workplace indications. When cell reconfiguration is required, DuraStripe **Mean Lean** can be easily removed saving time and labor.

The chart below compares Mean Lean and X-Treme to help you choose the best DuraStripe version for your facility and application.

	<u>Mean Lean</u>	<u>X-Treme</u>
Vinyl Thickness	12 mil	19 mil
Adhesive	Identical	
Beveled edge	No	Yes
Recommended for heavy fork traffic	No	Yes
Recommended for rough flooring conditions	No	Yes
Opacity	Medium	High
Easily reconfigurable	YES	

In an appropriate environment **Mean Lean** is the most economical, versatile, flexible peel-&-stick marking for your visual communication needs.

DURASTRIPE[®] **X-TREME**

The most rugged peel-&-stick striping material you can employ.

Recommended for:

- *Rough flooring conditions*
- *Heavy forklift traffic*
- *Challenging and critical environments*

X-Treme DuraStripe combines a durable, impact resistant skin with an aggressive, conforming adhesive to deliver a striping material that conquers harsh industrial environments. Its specially designed surface layer is engineered to resist damage caused by pivoting and skidding forklift wheels - two of the most common causes of aisle marking destruction. Its beveled edge assists dragged pallets in sliding over the stripe to avoid slicing or tearing.

The chart below compares Mean Lean and X-Treme to help you choose the best DuraStripe version for your facility and application.

	<u>Mean Lean</u>	<u>X-Treme</u>
Vinyl Thickness	12 mil	19 mil
Adhesive	Identical rubber-based	
Beveled edge	No	Yes
Recommended for heavy fork traffic	No	Yes
Recommended for rough flooring conditions	No	Yes
Opacity	Medium	High
Easily reconfigurable	YES
