

SPI 16

Code No.: T0056400599N

Benefits

- › 15 W, 230 V
- › Heating up time approx. 180 sec.
- › Tip temperature approx. 360°C

In addition we recommend:

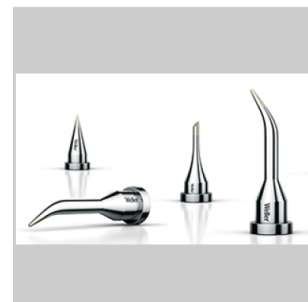

Fume extraction devices

Preheating plates

Cleaning Consumables

Soldering Tips

Technical Data

Active Tip Heating element technology	---
Power Response Heating element technology	---
Silver Line Heating element technology	---
Voltage	230 V AC
Heating output	15 W
Tip family	SPI15
Power unit	---
WX compatible	---
Temperature range °C	ca. 360
Temperature range °F	ca. 680
Heat-up time	180
Safety rest	---
Safety rest (optional)	---
Barrel	---
Integrated tip extraction	---
