

# HAP 200 Set

Code No.: T0052711799N

## Benefits

- › 200 W, 24 V
- › Temperature range from 50°C - 550°C
- › Activated by finger switch

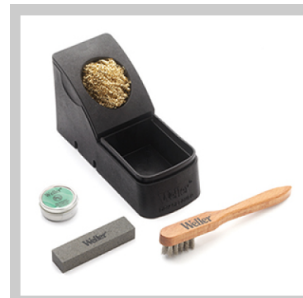

In addition we recommend:

Fume extraction devices

Preheating plates

Cleaning Consumables

Soldering Tips

Technical Data

|   |                      |
|---|----------------------|
| Active Tip Heating element technology     | ---                  |
| Power Response Heating element technology | ---                  |
| Silver Line Heating element technology    | on                   |
| Voltage                                   | 24 V                 |
| Heating output                            | 200 W                |
| Tip family                                | F, R, D, Q           |
| Power unit                                | WR 3M, WR 3ME        |
| WX compatible                             | ---                  |
| Temperature range °C                      | 50 - 550             |
| Temperature range °F                      | 150 - 950            |
| Heat-up time                              | ---                  |
| Safety rest                               | WDH 30 (T0051515299) |
| Safety rest (optional)                    | WDH 30 (T0051515299) |
| Barrel                                    | ---                  |
| Integrated tip extraction                 | ---                  |
