ELECTRO FIELD METER FOR WALKING TEST BGT VISIO

High-precision electric field meter for walk-in test with display and archiving using a tablet. The measurements are shown directly on the tablet's display using the software supplied. The recorded data can be saved and archived on the tablet as a measurement curve.

SCOPE OF DELIVERY:

- Electric field meter with high sensitivity and installed voltage measuring head
- Windows tablet PC with 10" touch display
- EFM Read-out software (pre-installed)
- Aluminum system case with foam insert
- Earthing module with 1x DK 10 and 2x banana
- Hand electrode
- 3m silicone test lead
- USB cable with mini plug
- Spiral earthing cable with alligator clip
- operation manual
- Calibration certificate

TECHNICAL DETAILS:

Dimension (L x B x H)	36mm x 120mm
Weight	Approx. 180g
Calibration with plate capacitor	200mm x 200mm, distance 25mm
Measuring ranges	5kV / m, 25kV / m, 50kV / m and 250kV / m
Alignment accuracy	<%5
Power supply	Interface
Grounding	about 4mm banana bush (back)
Interface	USB
