ESD Protection Solutions

SKU: PK000003

### ESD Shielding Film Roll

ESD Shielding Film Roll are high quality and flexible solution for the packaging and transportation of the ESD sensitive components and equipment. Giving these highly ESD sensitive articles ultimate protection, they can also easily adapt with the dimension requirements of the items. With the help of an impulse hand sealer, one can also easily make customized ESD Metal-in Shielding Bags to accommodate the articles with any dimensions. ESD shielding films are also rather transparent alleviating the need for additional labeling.

#### FEATURES & BENEFITS

- Color: Silver
- Width: 1m
- Length: 500m
- Thickness: 0.075mm
- Surface resistivity:  $10^{10}$  Ohm/sqr
- Heat seal temperature: 375-250 °F
