Flat Base ESD Tote Boxes

ESD tote boxes are made of conductive polypropylene and designed to suit standard pallets 1200 x 1000mm and 1200 x 800mm. They are stackable up to 500kg with multi-stacking combinations as available in a light version for weight sensitive applications. complete Faraday Cage protection against the effects of ESD. Being semi-transparent makes it easy content identification as well.

TECHNICAL DATASHEET

ESD Protection Solutions

FEATURES & BENEFITS

- Material: Conductive polypropylene
- Color: Black; All containers marked with ESD sign
- Working temperature: 800C deformation can appear from 500C; Surface Resistance: Less than 10⁴ Ohm
- Average stack load: 500kg
- Standard Compliance: IEC 61340-5-1 / RoHS Directive (2002/95/CE)
