ESD Field Service Engineering Kit

This static safe Field Service Engineers Kit is a neat and handy portable EPA for use when away from your permanent workstation. The compact yet highly visible red pouch contains a mat, wrist band, coiled earth lead and straight earth lead so you can safely work to EN 1-5-61340 requirements.

Ideal for use when servicing equipment which incorporates static sensitive devices or components.

FEATURES & BENEFITS:

- Creates an instant EPA for safe working, even remotely
- Red pouch ensures the kit is easily visible
- Self-contained kit keeps everything safely stored and neatly to hand
