Anti Static Wrist Band, Metal, Black, 1.8m Cord, Alligator Clip

A fully expandable ESD metal wrist strap providing a continuous electrical path to ground, ensuring operators are protected against damaging electrostatic discharge.

Anti-static Metal Wristband is made from flexible stainless-steel metals. This makes the wrist bands easy to be kept clean while not generating particles. Therefore, they are ideal for use in semi-clean/low particulate environments such as cleanrooms.

FEATURES & BENEFITS:

Color: Black

Coil cord length: 1.8m

Snap size: 10mm

Coil cord end: Alligator clip

Easily fit any wrist size

Suitable for use in the cleanrooms
