ESD Waste sacks, 110 Liter, Yellow, 100 PCS/pack

Our ESD Waste Sacks are specifically designed for the particular needs of the electronics industry and, when used in conjunction with our range of antistatic bins, provide a comprehensive ESD-safe solution to waste disposal in an ESD protected area.

FEATURES & BENEFITS:

- Specifically designed to meet the needs of the electronics industry
- Made of homogenous, non-amine antistatic polyethylene which is effective at low relative humidities (less than 12%)
- Printed in black with the industry-standard ESD logo and text for ease of identification
- Surface resistance of $<10^{11}$ ohms/sq
- Supplied in packs of 100
