### Orange Antistatic Anti-Slip Finger Cots

Finger Cots are ideal for handling small parts where a full glove is not required. Our finger cots are Anti Static and Powder free. Industrial grade orange finger cots are made of heavy natural rubber latex material. These finger cots are anti-slip, durable and re-usable. ESD finger cots provide the best value and are designed for a cleanroom and static charged environment.

#### FEATURES & BENEFITS:

- Materials: natural latex
- Powder free: yes
- Antistatic resistivity: less than  $10^{10} \Omega$
