**WDH 10P1**

Code No. : **T0051514799**

**Safety Rest with Stop & Go Function**

WDH 10 Nitrogen Safety Rest with Stop+Go Function for Soldering Irons WSP 80, WP 80IG and WP 120IG

The Weller soldering irons feature high precision and a very fast heat up time. The ergonomic design and high performance of the soldering irons allow fine soldering jobs as well as heavy duty tasks. A wide range of soldering tips makes them versatile for almost every job.

**Usable Tip family**      LT

For special solder applications with lead free solder. The WDH 10P nitrogen safety rest with Stop & Go function gives the possibility to upgrade the Weller soldering iron WSP 80 to a nitrogen iron. WDP 10P fits for iron WP 80IG and WP 120IG. Through the special nitrogen barrel the gas fed to the solder tip and becomes heated up. The safety rest with Stop & Go function starts the gas flow when the iron is removed and stops it when the iron is replaced. With a spherical valve the gas flow could be regulated from 0 - 5 l. The nitrogen could be taken from pressure bottle, tank, or a nitrogen generator. For a good soldering result the purity from nitrogen should be 5.0.

**Packaging information**

<b>Shelf pack size (Units per shelf pack)</b>	Single
<b>Set</b>	Yes
<b>Technical Data</b>	
<b>Color</b>	Black
<b>Cord plug</b>	Weller station plug
<b>Cord material</b>	Silicone
<b>Material delivered tip</b>	Iron plated
<b>Usable Tip family</b>	LT
<b>Target application</b>	Electronic
<b>Tip grounding</b>	Grounding variable
<b>Degree of Freedom</b>	With cord
<b>Size</b>	Medium
<b>On/off indicator</b>	No
<b>Build in Light</b>	No
<b>Volt min</b>	24.0 V
<b>Volt max</b>	24.0 V
