ESD Protection Solutions

SKU: BR000010

ESD Brush Bended Handle Length 9.5 cm

The ESD brushes we promote consists of low charging or anti-static brushes, conductive brushes, static dissipative brushes, isolative and cleanroom brushes.

Important is to choose the right brushes available depending on the characteristics needed for your specific tasks, determine which type of brush is best for your application.

Both Dissipative and Conductive ESD Brushes should be used in ESD safe areas in a dry environment.

Anti-static brushes provide manufacturers of electronics and static charge sensitive products the tools for cleaning and manufacturing that do not create static charges. A variety of anti-static brushes have been

FEATURES & BENEFITS:

- Conductive handle with conductive nylon bristles
- Suitable for cleaning PCB's
- Suitable for both abrasion and residue removal
- Resistivity $10^4 - 10^6$ Ohms
