ESD Comfort Chair, Casters

These upholstered ESD chairs are characterized by their comfortable seats made of high-resilient foam. Backrests and seats of ESD comfort chairs have height and angle adjustment possibilities with the help of gas columns and synchro mechanisms.

In standard form, the chairs are equipped with a five-branch chrome plated base that ensures high stability and unfailing removal of electrostatic charges. The castors are coated with conductive rubber preventing the floor from scratch-ing.

TECHNICAL SPECIFICATION:

PRODUCT CODE	DESCRIPTION
Resistance to groundable point R _G	10 ⁶ - 10 ⁸ Ohm
Seat and backrest resistance point to point R _P	10 ⁵ - 10 ⁶ Ohm
Seat size [mm]	440 - 460
Backrest size [mm]	430 - 500
Height adjustment [mm]	RS-K1ESD/S: 520 - 650 RS-K2ESD/S: 600 - 770 RS-K3ESD/S: 630 - 890
Chair standards	EN 61340-5-1, PN-EN 1335-1 2004, PN-EN 1335-2 2009, PN-EN 1335-3 2009, PN-EN 1022:2007
Fabric standards	EN 1021-1, EN 1021-2, BS 7176
Fabric abrasion resistance	60,000 Cycles

ACCESSORIES :

SKU: RS-KCZ/K1
Conductive wheel with tyre

SKU: RS-KCZ/K5
Metal wheel

SKU: RS-KCZ/K7
Conductive glide

SKU: RS-KPESD
Foot ring

SKU: RS-KZESD/P
PU armset
