

CELT

01-006123

The Grom boots were specifically designed for the uniformed services. They are characterised by minimalism, simplicity and the highest quality, meeting even the most stringent requirements. The model presented can cope with almost any conditions. They are made from a combination of different materials and the specially placed seams make the featured military boots extremely durable and easy to care for. The upper layer is lined with grain leather that is resistant to mechanical damage. Inside there is a lining made of technological fabric with a membrane. The military boots offered are suitable for any terrain. They are available in sizes from 36-49 and weigh only 0.555 kg.
