ESD Protection Solutions

SKU: B20000XX (Refer to table)

STATIC SHIELDING BAGS ZIP LOCK

Static shielding bags are perfectly designed to protect sensitive electronic components and products from electrostatic discharge (ESD) during transportation and storage. The bags have a 4-layer construction with an antistatic coating which provides a complete Faraday Cage protection against the effects of ESD. Being semi-transparent makes it easy content identification as well.

FEATURES & BENEFITS:

- Surface resistance of $10^6 - 10^{10} \Omega$
- Semi transparent for easy content identification
- Metal "Faraday cage" layer shields products from electric energy inside and prevents static build-up
- Four layer protection guards against charges inside and out
- Conforms to EIA 625, EIA 541, ANSI/ESD S-20.20 and EN61340-51-ESD and EN61340-53-ESD
- Ideal for safe storage of PCBs, integrated circuits, motherboards, computer components, etc.
